## *Ethics in Peace Operations*

This course presents a general introduction to the fundamentals of ethics in peace operations. The UN's new Values and Behaviours Framework, which defines nine linked elements (four values and five behaviours) detailing expectations for personnel — forms the basis for this course. Through the use of case studies and practical examples, this compilation aims to be a guideline for peace support personnel in the field. Topics include: the Code of Conduct; Cultural Awareness; Gender and Peace Operations; Sexual Exploitation and Abuse and Human Trafficking; Child Protection; Human Rights in Peace Operations; and UN Guidelines and Procedures on Discipline for Uniformed Peace Operations Forces. The course update has an increased focus on cultural and gender perspectives in peace operations. Seven lessons.
